DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 18, 32 and 47 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 18 and 47 include parenthetical language "(DME)." The Applicants should refrain from using parenthetical language in the claims because such language tends to either broaden or narrow the scope of the claim beyond that which is intended by an otherwise definite expression. Parenthetical language is appropriate, however, in the specification. Furthermore, the parenthetical language is redundant. It is suggested that the Applicant delete parenthetical language.

Art Unit: 1713

3. Claim 32 recites the limitation "the polymerizable unit" in claim 29. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 5. Claims 1-3, 6-10, 12-25, 29, 33-34 and 36-47 are rejected under 35 U.S.C. 102(b) as being anticipated by Bochkarev et al., Synthesis and Structure of the First Molecular Thullium (II) Complex: TmI₂(DME)₃, Angew. Chem. Int. Ed. Engl. 1997, 36, No. 1/2 (hereinafter "Bochkarev"). Bochkarev unequivocally establishes the existence of a new soluble divalent 4f element system, TmI₂(DME)₃. Thus, Bochkarev claims 1-3, 6-10, 12-25, 29, 33-34 and 36-47.

Allowable Subject Matter/Reasons for Allowance

- 6. Claim 32 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
- 7. Claims 4-5, 11, 26-28, 30-31 and 35 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 8. The following is an examiner's statement of reasons for allowance: The closest prior art located or identified by the Examiner is Bochkarev, Brunetti et al., J. Chem. Eng. Data 1999, 44, 509-515 (hereinafter "Brunetti"); Evans, Coordination Chemistry of Samarium Diiodide with Ethers . . ., J. Am. Chem. Soc. 1995, 117 8999-9002 (hereinafter "Evans").
- 9. As of the date of this Notice of Allowability, the Examiner has not located or identified any reference that can be used singularly or in combination with another reference including

Page 5

Art Unit: 1713

Bochkarev, Brunetti and Evans to render the present invention anticipated or obvious to one of ordinary skill in the art.

10. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

- 11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert D. Harlan whose telephone number is (703) 306-5926. The examiner can normally be reached on Mon-Fri, 10 AM 8 PM.
- 12. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David W. Wu can be reached on (703) 308-2450. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9559 for regular communications and (703) 872-9559 for After Final communications.
